

How It Works

How we maximize savings and earnings

1 Book A Briefing

Get an understanding of inerG's capabilities and, solution offerings for various roles and high value use cases. Discuss your specific needs, goals and current tools.

1-3 Hours

[Book Briefing Meeting](#)

2 Test Drive With Free Assessment/ Valuation

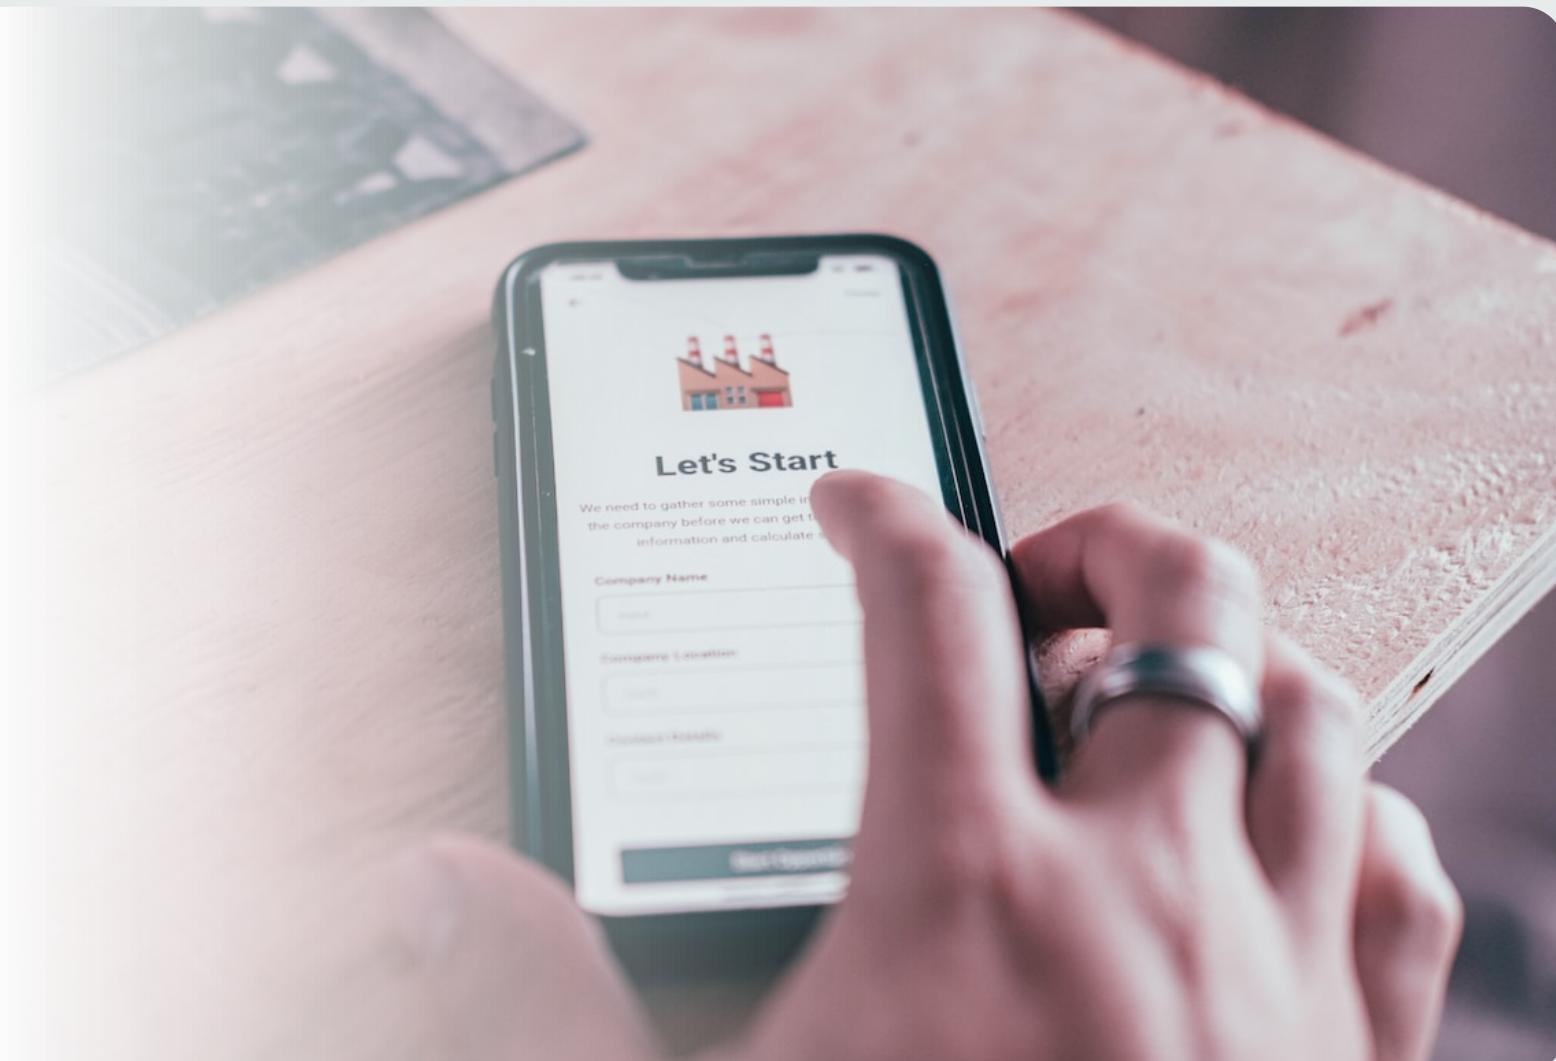

Load data specific to one of your assets/operating companies, activate preview area for your company in inerGcloud, setup asset to assess it's performance if your need is to manage for top performance or setup a project for a preliminary valuation if your need is acquisition/divestiture. You review assessment/valuation in inerGcloud and we provide a subscription price quote based per lease or production streams.

3-5 Days

3 Free Onboarding

Populate your area in inerGcloud with your existing digital data and setup connector streams for ongoing data transfer from your existing systems. Configure asset models and train users to address high impact business problems or performance improvement opportunities identified.

1 Month

4 Go-Live

Go-live into productive use and scale the solution to all impactful user roles, use cases and asset areas. Incorporate user feedback and fine tune configurations and user experience to help you manage your assets with full confidence to achieve top risk adjusted performance.
